DETAILED ACTION

1. It is noted that the Examiner attempted to contact Paul J. Skwierawski on multiple occasions to discuss the following issue however the Applicant could not be reached.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-10, 12-14 and 26 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter (e.g., "a reference unit configured to..." – claim 1, ll. 5-14; claim 14, ll. 3-9; claim 26, ll. 5-14) which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. While the written description discloses a priority display control section 105 and priority display processing section 107 which in tandem perform the functions claimed as being performed by a "reference unit" (col. 5, ll. 2-21, 38-64) the written description fails to disclose a "reference unit" or that said section 105 and section 107, in tandem, read on a "reference unit."

Allowable Subject Matter

4. Claims 15-18 and 20-25 are allowed. In regard to said claims the cited prior art of record fails to teach or suggest the respective claim limitations when considered as a whole.

Response to Arguments

5. Applicant's remarks have been fully considered but they are not persuasive.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
